

Tomorrow, Monday, November 11th is Veterans Day. We can never repay the Soldiers, Sailors, Marines, Airmen, and Coast Guardsmen who have risked all to defend our liberty. Yet these brave men and women need our help to defend theirs!

Unknown to most Americans, political appointees in the Obama administration and senior officers inside the military, cooperating with civilian anti-Christian and sexual activist groups, have radically changed military policy, training and culture. In fact some service members are being subjected to training that claims that the “greatest threats facing the country... come from evangelical Christians [and] the tea party.”

Consequently, some in our military have endured hostility simply because they are Bible-believing Christians. They’ve been silenced from sharing their faith, forbidden from praying publicly in the name of Jesus, and dismissed from duty for refusing to approve of same-sex “marriage.”

Action Steps:

- **Honor and Pray for our troops**, especially those who are being discriminated against for living out their faith;
- **Contact Congress** and urge them to support existing amendments to the FY 2014 National Defense Authorization Act that buttress conscience and religious liberty protections for our men and women in uniform. Call the Capitol Switchboard at (202) 224-3121. Or visit www.FRC.org and click on Contact Officials;
- **Spread the word about *MilitaryFreedom.org***. Find tools for action and an anonymous, confidential form for those seeking to report religious liberty violations and/or to obtain legal advice.

For more, visit www.FRC.org
