# THE ATHEISTS HAVE A PLAN

“Change is always one generation away. So, if we can plant the seeds of doubt in our children, religion will go away in a generation. And that is what I think we have an obligation to do.”

— Atheist Activist, Professor Lawrence Krauss

---

Our life-changing seminar, ***Faith, Freedom & Public Schools***, will equip educators throughout your community with practical and legally-sound strategies to teach about the important influence of the Bible and Christianity across the curriculum.

Our parents' seminar, ***Keeping Their Faith in Public Schools***, will equip parents to help their children graduate with their faith and values intact.

According to Barna Group research, 84 percent of church families send their children to public schools. Pastor, we want to help you fulfill your

vision and mission for your community by strengthening your brothers and sisters already in the public schools as educators, parents, and students.

“Church, please consider joining me in endorsing and promoting Gateways to Better Education as a resource in your community. Your schools will be more faith-friendly places, and your children will have a better future because of it.” — *Mike Huckabee*

“I applaud Gateways for its tremendous work of equipping parents and teachers. I hope you get involved with Gateways so students will learn about the importance of the Bible and Christianity.” — *Chuck Colson*

## MISSION STATEMENT

To challenge and empower the church in America to discover and carry out its God-given role in fulfilling the Great Commission.

### Winning America

Winning America is a clarion call to the church in America to reengage in the life of our nation.

The historic role that the church and the Christian faith have played in our nation's history is little known, but it is vital...vital even to our continued survival.

However, it's not enough to merely know that history. We need to also understand that the church in America withdrew from many areas of our nation's life beginning early in the 20th century. *The results have been devastating.*

Thus, the church must reengage in all areas of American life. The way that happens is for each believer and each church in our nation to cry out to God, *"Here am I. Send me!"*

When every follower of Christ discovers and carries out their God-given assignments, our nation will have a different story.
